Portland, Oregon

We have audited the accompanying statements of financial condition of Mitchell Securities Corporation of Oregon as of December 31, 2001 and 2000, and the related statements of income, changes in stockholders' equity, changes in liabilities subordinated to claims of general creditors, and cash flows for the years then ended that you are filing pursuant to rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audits in accordance with auditing standards generally accepted in The United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provided a reasonable basis for our opinion.

In our opinion, the financial statements referred to above, present fairly, in all material respects, the financial position of Mitchell Securities Corporation of Oregon as of December 31, 2001 and 2000, and the results of its operations and its cash flows for the years ended, in conformity with accounting principles generally accepted in The United States of America.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Company is an Oregon corporation and a registered broker-dealer in securities under the Securities and Exchange Act of 1934, as amended. The Company renders broker-dealer services in securities on both an agency and principal basis to its customers who are fully introduced to D. A. Davidson. The Company is exempt from the reserve requirements under SEC Rule 15c3-3 (k) (2) (B), since it does not handle or carry customer securities and cash.

A summary of the Company's significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

1. Revenue Recognition

Security transactions and related revenue are recorded on a settlement date basis, generally, the fifth business day following the transaction date.

2. Securities Valuation

Marketable securities owned are stated at market value with changes in value reflected currently in the results of operations for the year.

3. Receivables

Receivables from brokers or dealers consist of commissions receivable and are considered fully collectible.

4. Income Taxes

The Company has elected to be taxed under the provision of Subchapter S of the Internal Revenue Code. As such, a provision for Federal income taxes is not reflected in the financial statement since taxation occurs at the individual shareholder level.

Investments

The Company is recording investments in warrants and stock with a published market value at cost as no market value is determinable at December 31, 2001.

7. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE B - LEASES

The Corporation leases office space on a month to month lease with a 90 day notice if canceling.

NOTE D - NET CAPITAL REQUIREMENTS

The Company is subject to the net capital rule (Rule 15c3-1) of the Securities and Exchange Commission. This rule prohibits the Company from engaging in any securities transaction at a time when its "aggregate indebtedness" exceeds fifteen times its "net capital" as those terms are defined by the rule. At December 31, 2001 the Company's net capital and required net capital, as defined, were \$578,245 and \$133,500 respectively, and its ratio of aggregate indebtedness to net capital was 1.08 to 1.

Report of Independent Certified Public Accountants on Internal Accounting Control

Board of Directors
Mitchell Securities Corporation of Oregon

We have audited the financial statements of Mitchell Securities Corporation of Oregon for the year ended December 31, 2001 and 2000, and have issued our report thereon dated February 6, 2002. As part of our audit, we made a study and evaluation of the Company's system of internal accounting control (which includes the procedures for safeguarding securities) to the extent we considered necessary to evaluate the system as required by generally accepted auditing standards. The purpose of our study and evaluation, which included obtaining an understanding of the accounting system, was to determine the nature, timing and extent of the auditing procedures necessary for expressing an opinion on the financial statements.

We also made a study of the practices and procedures followed by the Company in making the periodic computations of aggregate indebtedness and net capital under rule 17a-e (a)(11) and the procedures for determining compliance with the exemptive provisions of rules 15c3-3. No facts came to our attention that such conditions for exemption from rule 15c3-3 had not been complied with during the year. We did not review the practices and procedures followed by the Company in making the quarterly securities examination, counts, verifications and comparisons and the recordation of differences required by rule 17a-13 or in complying with the requirements for prompt payment for securities under Section 8 of Regulation T of the Board of Governors of the Federal Reserve System, because the Company does not carry security accounts for customers of perform custodial functions relating to customer securities.

The management of the Company is responsible for establishing and maintaining a system of internal accounting control and the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the Commission's above mentioned objectives of a system and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles.

Because of inherent limitations in any system of internal accounting control or the practices and procedures referred to above, errors or irregularities may nevertheless occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the degree of compliance with them may deteriorate.

Our study and evaluation made for the limited purpose described in the first paragraph would not necessarily disclose all material weaknesses in the system. Accordingly, we do not express an opinion on the system of internal accounting control of the Company taken as a whole. However, our study and evaluation disclosed the following condition that we believe results in more than a relatively low risk that errors or irregularities in amounts that would be material in relation to the financial statements of Mitchell Securities Corporation of Oregon may occur and not be detected within a timely period. We noted that the Company maintains a limited number of accounting personnel, thereby resulting in a condition which precludes adequate segregation of accounting duties, thus causing inadequate controls over accounting transactions. It is the belief of management that, in addition to the impracticability of adding to the staff, management's involvement in the day-to-day business affairs offsets the lack of internal controls created by an insufficient number of personnel. This condition was considered in determining the nature, timing and extent of the audit tests to be applied in our audit of the 2001 and 2000, financial statements and this report does not affect our report on these financial statements dated February 6, 2002.

We understand that practices and procedures that accomplish the objective referred to in the preceding paragraph of this report are considered by the Commission to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objective in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study and evaluation, we believe that the Company's practices and procedures at December 31, 2001 and 2000, except for the matter described in the second preceding paragraph, meet the Commission's objectives.

This report is intended solely for the use of management and the Securities and Exchange Commission and the National Association of Securities Dealers, Inc. and should not be used for any other purpose.
